

W2D2Memo 3

23 November 2021

Hello W2D2 participating teachers,

If this is your first W2D2 Memo of 2021 and it has come by direct email then this is confirmation of your registration. Our moderators are in Cc – moderators, this is for you as well.

Here is the latest information:

- We are a little over one week from the big day!
- The [W2D2 Schedule of Videoconferences](#) is now available! It lists cities by location and time along with moderators. **Teachers and moderators both: please check to be sure the schedule works for you and, if there is any problem, contact me as soon as you can.**
- It is always best to test your videoconference connection, so we will have Zoom and Google Meet tests next week on Mon 29 Nov. The times are listed under [Videoconference Tests](#) in the Videocons page. Zoom tests are on the [W2D2 Zoom channel](#). Google Meet tests are on the [W2D2 GM channel](#). **For security, please do not give this information out to others.** Exception: give the information to your students when they need it if they are connecting to your scheduled W2D2 videocon remotely. Please only use these channels according to the Schedule of Videoconferences or for scheduled videocon tests.
- Please remember that we have resources to help you and your students to understand World Wide Data Day. Most are on the [W2D2 Homepage](#). Scroll down and look under Resources. Beneath that, you will find an archive of Memos, including this one. “Intro” and “How to” videos are on the [ATLAS](#) and [CMS](#) pages. Please use them!
- Students and teachers sometimes ask about the motivation and meaning of the Φ measurement. For an insight, please check my [interview with moderator Andrea Gozzelino](#) about that measurement and share it with your students.
- Questions? Send them!

Another Memo before Wed 1 Dec? We’ll see...

All the best,

Ken
