

W2D2 Memo 5 - last memo!

08 November 2023

Hello W2D2 participants,

W2D2 starts in a matter of hours. Let's get right to it:

- **Big oops!** In Memo 4, you were directed to Worldwide Google Sheet **2022**. We've since corrected that, but in case you missed it, teachers put their class results in [Worldwide Google Sheet 2023](#).
- For the W2D2 Schedule of Videoconferences, go to <https://cern.ch/w2d2> and find and choose the Videocons button. The schedule is there! Check to find your videoconference(s) and be sure it all works for you. If not, please contact Ken ASAP and we will try to adjust.
- **There are three videoconference channels. Your assigned channel is in the schedule on the Videocons page.**
 - **Channel A** – this is the **main Zoom channel** and the same channel we used for the Q&A. You will find it at <https://cern.zoom.us/j/69095161458?pwd=RVpMdHBDQkJ3Nit5a1RDdGFzWk5zQT09> (meeting id 690 9516 1458, passcode 90573703).
 - **Channel B** – this is the **secondary Zoom channel**, at <https://notredame.zoom.us/j/98557949838?pwd=K3AzMXBlcloyeS9wa0dtb1B0MzRrdz09> (meeting id 985 5794 9838, passcode fermilab).
 - **Channel C** – finally, our **Google Meet channel** at <https://meet.google.com/izn-zjkj-qhu> (dial-in +1 754-702-3089, pin 226 978 379#).
- Please do not share these videoconference links with anyone unless it is *needed*.
- Remember, teachers pick the datasets for their students to use. Instructions are in Memo 4. There are also “Data Claims” tabs to help you sort out what is already being used.
- Still want a Zoom test? Contact Ken ASAP. Since Zoom is pretty reliable, most of us will not need tests.

Do you have questions? Concerns? Something to say? Please contact us.

See you soon,

Ken and Shane
