

W2D2 Memo 3 Supplement

10 October 2019

Hello all,

Call this the "Memo 3 Supplement" to follow on with a bit more news:

- Registrations are now closed. If you are in the "To:" field of this email, you are all signed-up, though.
- The schedule for videoconferences next Wed 16 Oct is at <https://quarknet.org/content/w2d2-videoconferences#sched>. Please check it and let me know of anything that needs to be changed.
- If you were not in W2D2 last year with a successful Vidyo connection and you have not yet had a Vidyo test this year, then...you need a Vidyo test! Scroll below to the original Memo 3 to find the remaining Vidyo testing times and connection info.

This supplement will be linked on the W2D2 website. One more memo should come out Monday or Tuesday next week. Have a great measurement with your group and a great World Wide Data Day videoconference!

All the best,

Ken

P.S. The Flyer for students and the press release are now updated and on the W2D2 website!
